

Grade 8

Student Supply List

Hello, and thank you on behalf of Team 8 for attending to the needs of your student. Below you will find everything that you need to get in order to be ready for the next school year.

That said, I want to take a moment to acknowledge the difficulty and expense of the back-to-school shopping experience. For those parents who are tired of buying new binders every year, I urge you to talk with your son/daughter about taking care of their supplies so that they will be able to use them again the following school year.

And now, without further ado, your list:
